

Welcome to the Family & Consumer Science Department at Carroll High School

Freshmen can take the following course offerings:

Chef's World - Introduction to nutrition and cooking basics – lab class

Prerequisite for all other lab classes

Global Gourmet - Exploration of foreign & ethnic cuisines & customs, as well as Regional American cooking - lab class

Creative Baking - Explore the world of baking; savory and sweet. Labs will include cake decorating, cupcakes, cookies, yeast breads, quick breads and more! - lab class

Interior Design - Housing styles of past and present, exploring the elements and principles of design, culminating in a decorating project that involves designing your dream home.

Fashion Design - Students will explore the fashion industry, learning about designers, careers, fabrics and textiles and so much more. Students will show their creativity through hands-on projects as they learn the basics of color and design.

Child Development - Exploration of the developmental stages of children from birth through school age. Includes topics about families, parenting styles, learning and playing, pregnancy, and prenatal development.

Additional course offering for Juniors & Seniors:

Independent Living - the basics for surviving on your own in the adult world; goal setting, money management, job interviewing & resumes.

Meets the financial literacy graduation requirement

Club available to ALL students:

Carroll Cooking Club – This club allows students the opportunity to try their hand at cooking and baking even if they are not enrolled in a cooking class. We make fun seasonal treats and love trying new recipes from group members. We also provide treats for many Carroll events including, the Fall and Spring Plays, 8th grade open house, and St. Pat's Fest.
